

God Said

Tell me who can compare
And can stand beside
Match his love and grace
And his sacrifice
Gives us love
That lives on through eternity
Tell me isn't his love
A beautiful thang

God said
Pray to me and
Ask for help
With your problems
God said
I never wanted things
To ever go this far
God said
Know that I'm the way
The truth I am the light
Come with me I'll take you home
To paradise

Took a road that was long
Such a heavy load
Then the pain got me down
Could not find my way
Saw a light in the dark
And I heard a voice
And the darkest of journeys
Became my golden road

God said
Everything in time

Will fall right into place
God said
Society will function
In the garden that I've made
God said
When everything is done
You'll have all that you need
God said
Follow me I'll take you home
To paradise

If you need healing
Looking for a miracle
Pray to him, pray to him
He'll do it

Everything will come
Just have faith
Pray to him, pray to him
He'll do it

A way when you're lost
Help when you fall
Pray to him, pray to him
He'll do it

If you need a friend
To take you by the hand
Pray to him, pray to him
He'll do it

Down through time
Tried to follow all that God had said
Many times got so hard
Thought I'd lose my mind
But the answer were always
Always there to find
I had faith to follow
Him to paradise
